

Multifamily Common Area Lighting Guidelines to Qualifying Measures

Property owners/managers and electrical contractors should refer to the table below as a guideline when deciding which qualifying measures will be most appropriate to install in the common areas of their buildings. Please refer to the Consortium for Energy Efficiency Web site www.cee1.org as a resource for choosing qualifying T8 components. Incentive for retro-fitting T12 fixtures applies ONLY if NEW T8 lamps and a NEW electronic ballast is installed. Replacement of an EXISTING CFL with a NEW CFL does not qualify for incentives. Fixture replacement must be done on a one-for-one basis. Adding to the total number of fixtures DOES NOT qualify for incentives.

Incentive Category	Incentive Amount	Description of Incentive Eligible Measure	Specifications	Typical Application	Examples of Qualifying Products
Integral CFL ≥ 13 watts screw-in CFL	\$1.50	Compact fluorescent light bulbs 13 watts or greater to REPLACE incandescent bulbs.	Must be ENERGY STAR® qualified with screw-in base ONLY	General purpose: halls, basements, exterior	<p>Technical Consumer Products 2UB23</p> 
Modular CFL ≤ 18 watts pin-based electronic ballast fixture	\$23	Hard-wired fluorescent fixture 18 watts or less to REPLACE incandescent fixture	NEW hard-wired fluorescent fixture with electronic ballast	General purpose: halls, basements, exterior	<p>Max-Lite 18 watt Outdoor Lantern</p> 
Modular CFL > 18 watts pin-based electronic ballast fixture	\$26	Hard-wired fluorescent fixture greater than 18 watts to REPLACE incandescent fixture	NEW hard-wired fluorescent fixture with electronic ballast	hallways	<p>Technical Consumer Products 142 Copper Ceiling Dome 14240 CP</p> 
4' T8 32 watt lamps with electronic ballast	\$7 per tube	Upgrade an existing T12 fixture with magnetic ballast with NEW T8 lamps and electronic ballast	Only electronic ballast and T8 lamps listed on Consortium for Energy Efficiency Web site are eligible	halls, stairs, basements	<p>Phillips Alto Plus T8 lamps</p>  <p>See Web site: www.cee1.org</p>
