		Type of units (apartments, condos, etc.)
		Number of units in building
Home Builder (Company & Contact Name)		Incentive Recipient (if different than Home Builder)
Address		Address
City, State, Zip Code		City, State, Zip Code
Phone Number		Phone Number
Email		Email

I, the undersigned Home Builder, agree to the guidelines below and understand that for the New Home identified above to be qualified as ENERGY STAR, all minimum standards must be met.

- The enrolled New Home must meet the minimum requirements of the Environmental Protection Agency’s ENERGY STAR Homes in accordance with the Home Energy Rating (HERS) requirements. Current requirements can be found at [www.energystar.gov](http://www.energystar.gov). These standards shall be verified during site inspections by a qualified HERS Rater Program Ally.
- Changes to the design or specifications of the New Home may result in non-compliance and disqualification; therefore changes must be approved by the HERS Rater.
- The New Home will be certified as ENERGY STAR only after it has been approved as such, following on-site verification inspections performed by the HERS Rater.
- The inspections conducted by the HERS Rater are solely for the purpose of determining ENERGY STAR compliance and are not safety or building code inspections.
- The incentives associated with this Agreement are only for New Homes that are built in the gas service territory of the Ameren Illinois Utilities and that use gas as the primary heating fuel. Incentives offered at the time of this Agreement are available on a limited, first-come, first-served basis.
- Fund reservations may be modified or cancelled in the event that a project falls behind schedule to the extent that completion within a six (6) month timeframe is judged by the Ameren Illinois Utilities to be unlikely. Extensions to construction schedules may be granted on a case-by-case basis.
